ABOUT BASMed

BASMed Health Sciences FZC, guided by seasoned leaders with over 20 years of expertise in the healthcare sector within Gulf Cooperation Council (GCC) markets, has grown from humble beginnings to a significant presence in the industry. Initially starting as a distributor of Hospital, Dental and Aesthetics supplies through its retail unit in Kuwait, the company focused on providing consumables, instruments, devices, equipment, and furniture.

Over time, **BASMed** expanded its operations to include the UAE, Qatar, and Oman, leveraging these markets to gain valuable insights into customer needs. Currently, plans are underway to extend its reach further into Bahrain and Saudi Arabia, with the ultimate goal of covering the entire GCC region.

Our diverse business verticals includes Cosmeceutical, Nutraceuticals, Pharmaceuticals, Herbal & Health Products, Bio Pharma & Life Sciences, Healthcare Facilities Setup & Management, and Healthcare Digital Solutions. Through OEM/ODM partnerships, **BASMed** Brand Products have achieved remarkable success. With a commitment to innovation and excellence, **BASMed** continues advancing healthcare infrastructure in the region.

MISSION

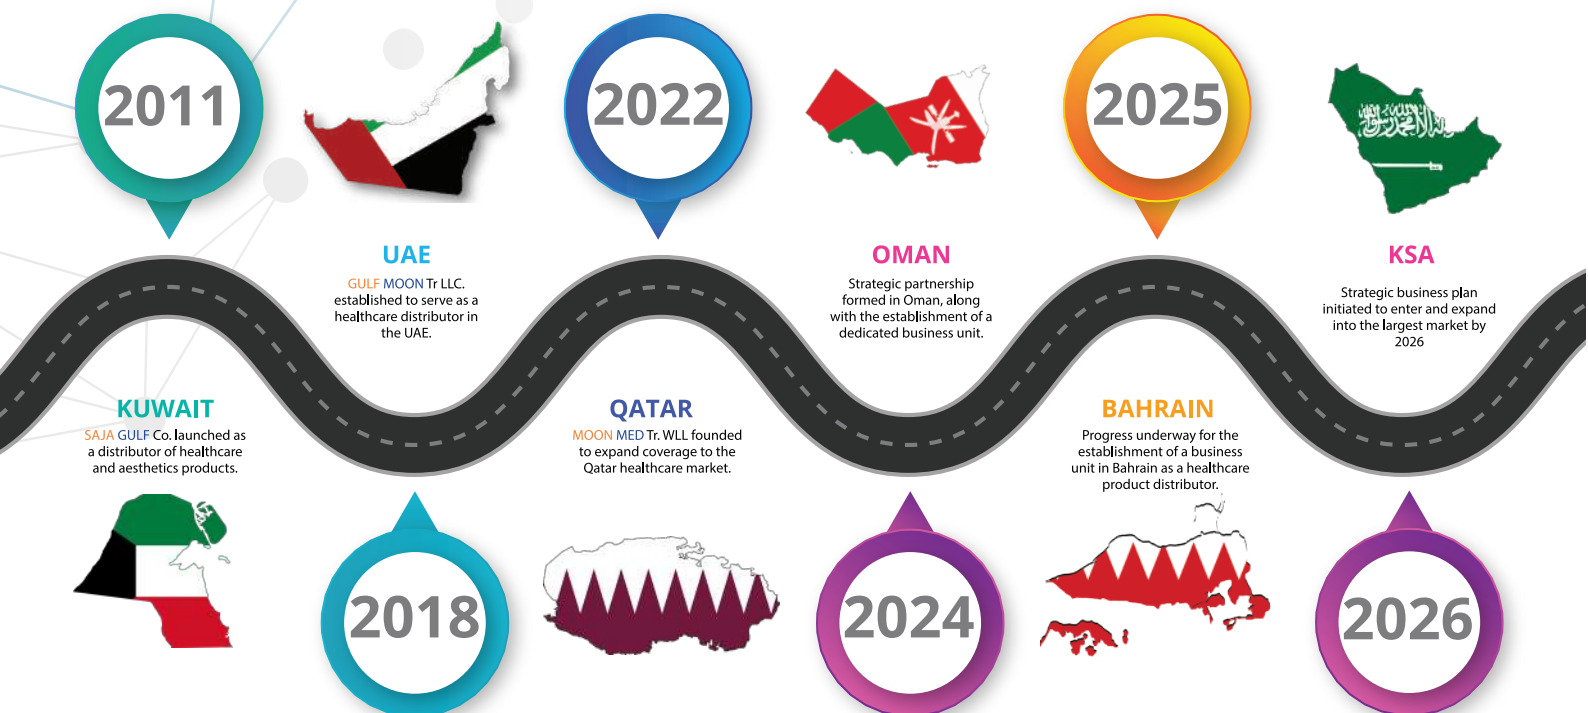

At **BASMed** Group, our mission is to provide exceptional healthcare products and services at competitive prices while maintaining the highest standards of quality. We are committed to a customer-focused approach, delivering unmatched support to empower our clients in providing superior healthcare solutions.

VISION

To establish a leading and enduring presence in the GCC healthcare market by becoming a trusted, all-encompassing solutions provider for service providers. Through close collaboration with manufacturers, suppliers, and distributors, we aim to set new benchmarks of excellence in delivering quality healthcare products and services.

VALUES

- Customers-Centricity
- Integrity
- Quality Excellence
- Innovation
- Collaboration
- Accountability
- Employee Focus
- Compassion

Dental Materials - Denu

Denu Light Body - لايت بودي

Features

- Excellent dimensional stability, High tear strength and elastic recovery
- Super hydrophilicity, Easy to extrude and use

Cartridge type:

Suggested Applications

- Crown, bridge, inlays, onlay, veneer and implant impressions
- Denture impression, Model impression

Tube type:

Suggested Applications

- Crown, bridge, inlays, onlay, veneer and implant impressions

Denu Heavy Body - هيفي بودي

Features

- Excellent dimensional stability, High tear strength and elastic recovery
- Super hydrophilicity, Easy to extrude and use

Cartridge type:

Suggested Applications

- Crown, bridge, inlays, onlay, veneer and implant impressions
- Denture impression

Tube type:

Suggested Applications

- Crown, bridge, inlays, onlay, veneer and implant impressions

Code	Type	Packing
1006721	Normal	4 x 50ml cartridge (Base 25ml / Catalyst 25ml)
1006722	Fast	4 x 50ml cartridge (Base 25ml / Catalyst 25ml)

Denu Heavy Body - مېديوم بودي

Features

- Excellent dimensional stability, High tear strength and elastic recovery
- Super hydrophilicity, Easy to extrude and use

Cartridge type:

Suggested Applications

- Crown, bridge, inlays, onlay, veneer and implant impressions
- Denture impression

Tube type:

Suggested Applications

- Crown, bridge, inlays, onlay, veneer and implant impressions

Code	Type	Packing
1006723	Normal	4 x 50ml cartridge (Base 25ml / Catalyst 25ml)

Denu Putty Set - بوتی سیت

Features

- Excellent dimensional stability, High tear strength and elastic recovery
- Super hydrophilicity, Easy to use

Suggested Applications

- Crown, bridge, inlay, onlay, veneer and implant impressions
- Denture impression, Model impression

Selectable setting time

- Normal type (Working time: 30 .1 minutes, Setting time: 4 minutes)
- Fast type (Working time: 30 .1 minutes, Setting time: 30 .2 minutes)

Code	Type	Packing
1006724		1 x 1 kg bottle - 1 measuring spoon

Denu Tray Cleaner - تراي کلین

Features

- Strong alginate-decomposing power
- Fast dissolution of powder into water
- No residue left on the tray
- Pink color added for instant identification of dissolving status

Suggested Applications

- Cleaning of alginate impression tray

Code	Type	Packing
1006725		4 x 50ml cartridges (Base 25ml / Catalyst 25ml)

Denu Bite Sil - بایت سیل

Features

- Easy handling and placement, Outstanding accuracy
- Very hard, No distortion
- Fast working time (20 seconds) and setting time (55 seconds)
- Shore A91

Suggested Applications

- "Occlusal registration"

Denu Trans Sil - ترانس سیل

Features

- Being transparent impression material, it enables to harden inside of the resin when light cured

Suggested Applications

- Crown and bridge impression
- Inlay and onlay impression

Code	Type	Packing
1006726		2 x 50ml cartridges (Base 25ml / Catalyst 25ml)

Denu Ginicord - جینجی کورد

Features

- Cutter, Ruler, Window for easy use
- The spool inside the bottle prevents the cord from getting tangled and enables to use the entire cord without any problems.
- Hydrophilic dye without fluorescent whitening agent
- Longer 20 % than other products (300cm/118 inches)
- Quick and easy identification by different colors

Suggested Applications

- Gingival tissue displacement before taking impression

Code	Type	Packing
1006727		1 x Bottle of cord (300 cm/118 inches)
1006728		1 x Bottle of cord (300 cm/118 inches)

Denu Composite Resin - کومبوزیت ریسین

Shade: A0, A1, A2, A3, A3.5, B1, B2, B3, U0

Features

- High strength and excellent water insoluble with optimum nano filler
Compressive strength 396 Mpa, Flexural strength 175 Mpa, Hardness 95 Mpa
- Excellent applicability(No stickiness and easy application)
- Manifested clearly on X-ray scan, Highly polishable
- Applicable for all anterior and posterior teeth restorations (Class I~V)
- Excellent color match with natural tooth

Suggested Applications

- Restoration for all anterior and posterior teeth sections(Class I~V)
- Restoration to fractured anterior teeth
- Replacement of amalgam for esthetic purpose
- Core build-up

Denu Composite Kit - کومپوزیت کیت

Kit 1

Composition

- Denu Composite Resin - 8 syringes
 - Denu Etch-1 - 37 syringe, tips
 - Denu Bond- 2 bottles, 15 micro applicators
- Selectable composite resin shades (Basic shades: A0, A1, A2, A3, A3.5, B1, B2, B3, U0).

Code	Type	Packing
1006752	Restorative Materials	2 x 50ml cartridges (Base 25ml / Catalyst 25ml)

Denu Temtooth - تیم توٹ

Shade : A1,A2,A3

Features

- Light cured resin for fabrication of temporary tooth
- Fast fabrication (within 3 minutes) of temporary tooth by hand, reducing the material loss
- Easy to use, Syringe type

Code	Type	Packing
1006740	Restorative Materials	5 x 2g syringes, disposable tips / pack
1006741	Restorative Materials	5 x 2g syringes, disposable tips / pack
1006742	Restorative Materials	5 x 2g syringes, disposable tips / pack

Denu Temp Flow - تیمب فلو

Shade: Blue, Light Blue, Yellow

Features

- No easily deviation till dental prosthetic installation
- Semi-gel type temporary restoration material
- Easy to remove, No debris left after removal
- Excellent sealing ability, Adhesive to the side of dental cavities
- Easy to check debris after removal with visible color (blue, yellow)

Suggested Applications

- Temporary restoration for inlay, onlay cavity
- Temporary filling and sealing, Temporary filling for implant abutment
- Damp-blocking temporary Sealing.

Code	Type	Packing
1006729	Restorative Materials	5 x 2g syringes, disposable tips / pack

Denu Temp Crown - تیمب کراون

Light cured paste-type resin for making a temporary crown

Shade : A1, A3

Features

- Enables to save the materials and time for fabrication of temporary crown

Code	Type	Packing
1006730	Restorative Materials	2 x 2g syringes, disposable tips, A1
1006731	Restorative Materials	2 x 2g syringes, disposable tips, A3

Denu Flow Resin - تفلو ریسین

Shade: A0, A1, A2, A3, A3.5, B1, B2, B3, U0

Features

- Excellent water insoluble material with optimal nano hybrid filler Compressive strength 340 Mpa, Flexural strength 150 Mpa, Hardness 65 Mpa
- Excellent flow into the dental cavities by superb flowability
- Low polymerization shrinkage, Available in adhering orthodontic bracket
- Aesthetic is well considered by matching the near-natural tooth Temp Flow

Suggested Applications

- Cavity liner for direct restoration, Small and deep minute gap
- Sealing of pit and fissure, Base and Liner of restoratives
- Block-out of undercut.

Code	Type	Packing	Code	Type	Packing

U0-1006770	Restorative Materials	2 x 2g syringes, disposable tips / pack			

Denu Fil Flow - فیل فلو

Flowable filling material for implant abutment

Features

- Perfect sealing to prevent screw loosening
- Excellent homogenous for perfect sealing
- No shrinkage, No expansion
- Flexible enough to remove easily
- Easy to apply, No cracking, No foul odor.

Code	Type	Packing
1006732	Restorative Materials	5 x 1.2ml syringes, disposable tips

Denu Etch 37 - اتش

Flowable filling material for implant abutment

Features

- Perfect sealing to prevent screw loosening
- Excellent homogenous for perfect sealing
- No shrinkage, No expansion
- Flexible enough to remove easily
- Easy to apply, No cracking, No foul odor.

Code	Type	Packing
1006733	Etchant & Adhesives	5 x 1.2ml syringes, disposable tips

Denu Temp Cement EZ - تیمپ سیمنت

Features

- Easy to remove residual cement on inner surface of prosthetic appliance or tooth surface
- Mixing time: 15-10 seconds, Operation time: within 40 seconds
- Setting time in mouth: 3

Code	Type	Packing
1006735	Etchant & Adhesives	2 x 5ml(13g) syringes, eco tips

Denu Bond - بوند

One-step for priming and bonding 5th generation bond

Features

- Light cured single component dentin and enamel bonding agent. 5th generation bond (Use Denu Bond after etching and then the resin)
- High bond strength, Long-lasting bond
- Available in bottle delivery

Suggested Applications

- All direct placements for composite resin restoration
- Bonding of composite to dentin, enamel and cementum.

Code	Type	Packing
1006734	Etchant & Adhesives	2 x 5ml(5g) bottles

Denu Temp Cement NE - تیمپ سیمنت

Features

- Good adhesive bonding strength
- Compatible with acrylic resin and plastic provisional materials
- With attachment of eco tip, minimum amount of Denu Temp Cement is used
- Due to fast curing in oral cavity, operation time is reduced
- No irritation of soft tissue

Suggested Applications

- Temporary cementing of temporary ceramic, metal or composite inlay, onlay, crown, bridge, post and screw

Code	Type	Packing
1006735	Etchant & Adhesives	2 x 5ml(13g) syringes, eco tips

Denu Dual Core - دوآل کور

Shade: A3(yellow)

Features

- Dual-cured (light cured, self cured)
- Fast and deep dual-cured (Polymerization depth for 20 seconds : 5.1mm)
- High compressive strength (310 MPa)
- High bond strength to dentin, enamel and post

Suggested Applications

- Applicable for all types of core build-ups
- Permanent restoration of tooth damage for therapeutic purposes.

Code	Type	Packing
1006715	Core Material, Liner	2 x 5ml(10g) syringes, mixing tips, eco tips

Denu Gingicord - جینجی کورد

Features

- Cutter, Ruler, Window for easy use
- The spool inside the bottle prevents the cord from getting tangled and enables to use the entire cord without any problems.
- Hydrophilic dye without fluorescent whitening agent
- Longer 20 than other products (300cm/118 inches)
- Quick and easy identification by different colors

Suggested Applications

- Gingival tissue displacement before taking impression

Code	Type	Packing
1006716	Etchant & Adhesives	1 x Bottle of cord (300 cm/118 inches)
1006728	Etchant & Adhesives	1 x Bottle of cord (300 cm/118 inches)

Denu Base Liner - بیس لایٹر

Features

- Pulp-capping material
- Protect a dental pulp for fillings, High strength
- Contains calcium hydroxide in a urethane dimethacrylate base
- Low shrinkage when light-cured

Suggested Applications

- Cavity liner and base material prior to placement of restorative materials
- Pulp-capping

Code	Type	Packing
1006738	Core Material,Liner	2 x 1.2ml syringes, tips

Denu Vaseline - فازلین

Features

- Excellent separation, Hydrophilic material
- Blocking oxygen layer on resin surface
- No lowering of the adhesive power of cements or bonding material
- Blue-colored for easy checking of cleaning

Suggested Applications

- Separation of prosthesis such as temporary crown
- Easy separation of impression
- Blocking oxygen layer on resin surface.

Code	Type	Packing
1006748	Core Material,Liner	1 x 5ml syringe, tip

Denu EDTA Cream - ایدتا کریم

Features

- Root canal cleaner with unique formulation of glycol and urea peroxide
- Excellent chelation removes inorganic compound
- Lubrication provides easy instrument handling when root canal is shaped
- Tooth-colored pigment produces no pigmentation
- Perfect removal is possible after application
- Low viscosity of the creamy type provides high flowability and easy spraying into root canal

Suggested Applications

- Cleaning and preparation of root canal
- For expansion of root canal and removal of smear layer.

Code	Type	Packing
1006739	Core Material,Liner	2 x 6g syringes, disposable tips

Denu Dam - دام

Shade: Blue

Features

- Optimal viscosity for easy handling
- Short light-curing time (10 seconds)
- Adequate flow, Easy usability.
- Easy to remove after the treatment

Suggested Applications

- Gum protection for tooth whitening.

Code	Type	Packing
	Core Material,Liner	5 x 1.2ml syringes, disposable tips

Denu Fluoride Varnish - فلوراید فارنیش

DENU CLEAR VARNISH

Tooth-colored, Transparent | Flavor: Fresh sweet apple

Features

- Contains high-enriched fluoride, Long-lasting fluoride release
- Contains tricalcium phosphate(TCP) for continuous and effective fluoride release
- High adsorptive power for fast tooth surface coating
- Long-lasting sealing of the exposed dentinal tubules for relief of hypersensitivity
- Transparency provides natural tooth color for esthetic effect
- Fresh sweet apple flavor for easy access to children

Suggested Applications

- Caries prevention and hypersensitive tooth treatment

Code	Type	Packing
	Preventive & Pumice	10 & 100 unit-dose package

Denu Fluoride Gel - فلوراید جیل

Flavour: Strawberry

Features

- Natural dental care including caries prevention
- Contains fluoride ion (%1.23), xylitol and vitamin E
- Does not flow down when the gel is filled in the tray
- Effectiveness varies depending on the biting time of the fluoride gel tray filled with the fluoride gel (1 minute: %80 effective, 4 minutes: %100 effective)

Suggested Applications

- Caries prevention using a fluoride gel tray.

Code	Type	Packing
1006743	Preventive & Pumice	1 x 500ml bottle

Denu Seal - سیل

Shade: White

Features

- High flowability for minute pit or fissure
- High quality of water soluble with optimum nano filler
- Excellent adhesion and hardness
- Effective fluoride release
- Great adhesion and no falling
- Low polymerization contraction and strong abrasion resistance
- Excellent color match with natural tooth

Suggested Applications

- Sealing of pits and fissures
- Filling of minute dental decay
- Restoration of deciduous tooth.

Code	Type	Packing
1006750	Preventive & Pumice	2 x 1.2ml syringes, disposable tips

Denu Pumice Paste - بیومیک بیست

Flavor: Strawberry, with Fluoride

Features

- Enables to polish and smooth rough surface of tooth or prosthesis
- Phosphated fluoride(%1.23 fluoride ion) is contained
- Optimal viscosity leaves less lumps and provides fast grinding
- Nano-sized natural particles provide fine abrasion
- No pigmentation after application
- Sweet strawberry and natural mint flavors

Suggested Applications

- Grinding and polishing of teeth or prosthesis

Code	Type	Packing
1006746	Preventive & Pumice	1 x 340g bottle

Code	Type	Packing
	Preventive & Pumice	5 X 0.15g vials / pack

Denu Cure Cem MTA - ام تي اي كيور

Features

- Bioceramic material for endodontics
- Fast setting time for One day clinic (<1 hour)
- Does not cause discoloration (using Zirconia)
- High bioactivity & biocompatibility

Suggested Applications

- Root canal filling
- Apicoectomy
- Pulp capping
- Pulpotomy
- Repair of Root Perforations Biocompatibility.

Code	Type	Packing
	Preventive & Pumice	300 pcs (Size: 35mm x 65mm)

Denu Bite Block Cover - كلوفر بلوك بايت

Features

- Bioceramic material for endodontics
- Fast setting time for One day clinic (<1 hour)
- Does not cause discoloration (using Zirconia)
- High bioactivity & biocompatibility

Suggested Applications

- Root canal filling
- Apicoectomy
- Pulp capping
- Pulpotomy
- Repair of Root Perforations Biocompatibility.

Code	Type	Packing
1006750	Preventive & Pumice	12g x 1 dual syringe, spatula, mixing pad / pack

Denu Root Seal - بيوميك سيست

Resin based root canal sealer

Features

- Contains epoxy resin, zirconium oxide, and calcium cement for enhanced sealing and compatibility
- Easy-to-mix base and catalyst for a creamy, homogeneous consistency
- Works with various root canal filling techniques and materials.

Code	Type	Packing
	Preventive & Pumice	2g x 1 syringe, mixing tips / pack

Denu Pex - بيكس

Calcium Hydroxide Paste with Iodoform

Features

- Long-Lasting Effectiveness
- Provides additional antibacterial properties through iodine content
- Radiopaque formula for treatment verification
- Syringe-type applicator for convenient and direct use
- Superior Accessibility and Biocompatibility

Light Curing Filing Material Temporary

Code	Size	Color	Packing
1004468	4g syringes		2Pcs/Box

Ideal for temporary fillings of short and extended periods | Non eugenol composition | Quick and easy removal in one piece leaving the cavity clean.

Light Curing Bulk Fill Nano Flowable Composite i-FLOW Bulk Fill

Code	Size	Color	Packing
1004468	2g syringe, A3		Each

Light Curing Nano Flowable Composite

Code	Size	Color	Packing
1004456	2g A2, 3 tips		2Pcs/Box
1004457	2g A3, 3 tips		2Pcs/Box

For restorations of class III, IV and V cavities | For root surface caries restorations | For sealing pits and fissures | For initial placement in class I and II cavities.

Light Curing Nano Hybrid Composite

Code	Size	Color	Packing
1004452	4g A2		2Pcs/Box
1004453	4g A3		2Pcs/Box

For direct restorations of class I, II, III, IV and V cavities | For indirect restorations such as inlays, onlays | For cores.

Root canal preparation solution 17% EDTA

Code	Size	Packing
1004466	250 ml	Each

Helps to clean, soften and widen the dentinal walls of the root canals | Neutral pH 0.01 ± 7.83 | Helpful in enlarging of canals | Opens calcified canals | Water-based, easily reach narrow apical area and can be easily removed.

Etching Gel Porcelain, Hydrofluoric Acid

Code	Size	Packing
1000121	9% 1,2ml syringe, 5 tips	Each

Etching of porcelain restorations (crowns, bridges, inlays, onlays) prior cementation.

Sodium hypochlorite Solution

Code	Size	Packing
1000848	250ml	Each

Dissolves organic matter | Neutralises and eliminates bacteria and their toxins | Dissolves necrotic tissue | Asepticises root canals to ensure effective endodontic treatment.

Glass Ionomer Base Lining Cement

Code	Size	Packing
1004462	20g powder, 10g liquid	Each

Base linings under composites | Base linings under amalgams | Core build-ups.

Glass Ionomer Filling Cement

Code	Size	Packing
1004460	2x10g A2 powder, 6g liquid	Each

For restoration of class III and V cavities, pits and fissures, class I and II cavities in deciduous teeth.

Hemostatic Surgical Dressing i-ALVEOL Clean

Code	Size	Packing
1001709	12gram	Each

Very easy-to-apply, non-absorbable | Thick paste that contains Penghawar djambi fiber and adheres easily to the alveoli | Creating a natural barrier that controls bleeding quickly and protects against infections after tooth extraction, dry nest or complicated extraction.

Light Curing Adhesive

Code	Size	Packing
1004458	5 ml	Each

For use on dentine and enamel surfaces | On amalgam and ceramic surfaces | On treated metals
For composite and compomers Advantages.

Light Curing Compomer Liner

Code	Size	Packing
1004459	2.5g syringe, 5 tips	Each

For lining under polymer-based restorative materials, amalgams and porcelain.

Oil Spray for hand piece

Code	Size	Packing
1004475	500 ml	Each

Special nozzle for handpieces

Post Cementation Material

Code	Size	Packing
1004479	9g, 2x10 tips	Each

For core build-up and post cementation | High adhesion | Radiopaque | Dual cure |
Highly resistant | High aesthetics.

Root Canal Rinsing Solution 40% Citric Acid

Code	Size	Packing
1003834	250 ml	Each

Improves mechanical cleaning of the root canal | Removes a layer of smear from the walls of the tooth, showing the openings of the dentinal tubes | Allows you to identify, clean and accurately fill the channels.

Silver Glass Ionomer Cement

Code	Size	Packing
1004461	10g powder, 3g liquid	Each

Restoration of class I and II cavities | Base under posterior composite restorations and amalgams | Core build-ups | Crowns and amalgams repairs | Primary teeth fillings.

Tooth Polishing Paste

Code	Size	Packing
1005725	Coarse	Each
1005724	Fine	Each
1004470	Medium	Each

To clean debris, plaque, calculus, stains, and other accretions from the teeth | For the teeth surface preparation (cleaning and polishing) prior to restorations and fluoride treatment | For recontouring, finishing and polishing the surface after restoration to restore normal contours, smooth margins, and to create a high luster shine, the overall appearance and longevity of the restoration itself.

Gel Etching 37% phosphoric Acid

Code	Size	Packing
1004469	4.3g, 5 tips	1Pc/Pkt
1005723	4x4.3g Syringes, 10Tips	4Pcs/Pkt

Tooth enamel and / or dentin etching | Optimum level of viscosity | Removes smear layer and opens dentinal tubule orifices | Quick, effective application due to consistent material thickness.

Light Curing Bulk Fill Nano Flowable Composite i-FLOW Bulk Fill

Code	Size	Packing
1005720	2g syringe, A2	Each
1005721	2g syringe, A3	Each

For initial placement in class I and II direct restorations | For restorations of minimally invasive cavity preparations | For restorations of class III and V cavities | For repair of small enamel defects and defects in esthetic indirect restorations | For sealing pits and fissures.

Light Curing Nano Flowable Composite

Code	Size	Packing
1004455	2g A1, 3 tips	Each
1004456	2g A2, 3 tips	Each
1004457	2g A1, 3 tips	Each

For restorations of class III, IV and V cavities | For root surface caries restorations | For sealing pits and fissures | For initial placement in class I and II cavities.

Light Curing Nano Hybrid Composite

Code	Size	Packing
1004451	4g A1	Each
1004452	4g A2	Each
1004453	4g A3	Each

For direct restorations of class I, II, III, IV and V cavities | For indirect restorations such as inlays, onlays | For cores.

Post Cementation Material

Code	Size	Packing
1004479	9g, 2x10 tips	Each

For core build-up and post cementation | High adhesion | Radiopaque | Dual cure | Highly resistant | High aesthetics.

Orthodontic

Ligature Tie O Type

Code	Size	Color	Packing
1003927			100Pcs/Pkt

Material: Food grade rubber | It helps the teeth and closes the gaps between them | Anti-allergic | Compact and solid.

Bur Block

Code	Size	Color	Packing
1003455	70 holes		1 Roll/Box
1000124	30 holes For FG		1 Roll/Box

Material: Aluminium, autoclavable

Mixing Pad

Code	Size	Color	Packing
1000320			200Pcs/Bag

Disposable mixing pads with poly-coated, and easy to use | Used in conjunction with the spatula For mixing power and liquid in the dental surgery.

Glass Mixing Plate

Code	Size	Packing
1003926	124x78x7mm	Each

Material: Glass | Usage: Embedded Material, Orthodontic Material, Dental Preventive Health Care Materials, Planting Material, Bonding Material, Filling Material, Denture Processing.

Neaten Case

Code	Size	Color	Packing
1001607			300Pcs/Box

Autoclavable, can be heated to 121 degree | Material: PP | Made of high quality impact resistant plastics.

Plastic Spatula

Code	Size	Color	Packing
1000399	Standard	Asstd Color	Each

Material: PP, TPR, ABS | Made of food grade plastic material, BPA-Free, durable and safe to use | Sleek flat head, mix drugs easily and thoroughly | Autoclavable can be heated to 121°C.

RETAIL

BASMed manages distribution across the GCC region through its subsidiary business units established in Kuwait, Qatar, Oman, and the UAE. The company is also expanding its retail operations in Bahrain and Saudi Arabia to achieve full market coverage across the GCC.

BRAND

BASMed creates its own product lines through OEM/ODM collaborations with manufacturers operating state-of-the-art facilities in China, Korea, Malaysia, India, and other countries. Each product in our brand portfolio is carefully selected and highly customized to meet the specific needs of our regional customers.

MANAGED BUSINESS SERVICES

BASMed Managed Business Services (MBS) provides global healthcare product manufacturers with the support they need to establish or expand their presence and grow their market share in GCC markets. Through our "Incubatory Program," MBS also offers tailored services to distributors in the GCC region, helping them enhance their market presence with expert guidance.

HEALTHCARE DIGITAL SOLUTIONS

BASMed delivers cutting-edge digital healthcare solutions, including AI-Care Tailored Health Solutions, Digital Healthcare Solutions, Hospital Automation, and Healthcare Service Provider Consulting, aimed at optimizing operations, elevating patient care, and streamlining healthcare services across the GCC.

In 2019, **BASMed** Group entered into a joint venture agreement with a partner in China, resulting in the establishment of "Chengdu LANMED International Trading Co." This entity focuses on identifying and evaluating OEM/ODM partners, overseeing quality assurance and quality control (QA/QC) processes, and managing shipment logistics services from China to Gulf countries.

BASMed Group entered into a Memorandum of Understanding (MOU) with the renowned Chinese manufacturer "Dongpin Intelligent Health Technology Co. LTD," known for producing hospital and spa furniture. Together established "**Golden Crown** Furniture Trading LLC" in the United Arab Emirates. This business unit provides comprehensive furniture solutions for hospitals, healthcare facilities, cosmetic centers, beauty salons, and spas, supported by a state-of-the-art showroom and a well-stocked warehouse to serve the target market efficiently.
