ABOUT BASMed

BASMed Health Sciences FZC, guided by seasoned leaders with over 20 years of expertise in the healthcare sector within Gulf Cooperation Council (GCC) markets, has grown from humble beginnings to a significant presence in the industry. Initially starting as a distributor of Hospital, Dental and Aesthetics supplies through its retail unit in Kuwait, the company focused on providing consumables, instruments, devices, equipment, and furniture.

Over time, **BASMed** expanded its operations to include the UAE, Qatar, and Oman, leveraging these markets to gain valuable insights into customer needs. Currently, plans are underway to extend its reach further into Bahrain and Saudi Arabia, with the ultimate goal of covering the entire GCC region.

Our diverse business verticals includes Cosmeceutical, Nutraceuticals, Pharmaceuticals, Herbal & Health Products, Bio Pharma & Life Sciences, Healthcare Facilities Setup & Management, and Healthcare Digital Solutions. Through OEM/ODM partnerships, **BASMed** Brand Products have achieved remarkable success. With a commitment to innovation and excellence, **BASMed** continues advancing healthcare infrastructure in the region.

MISSION

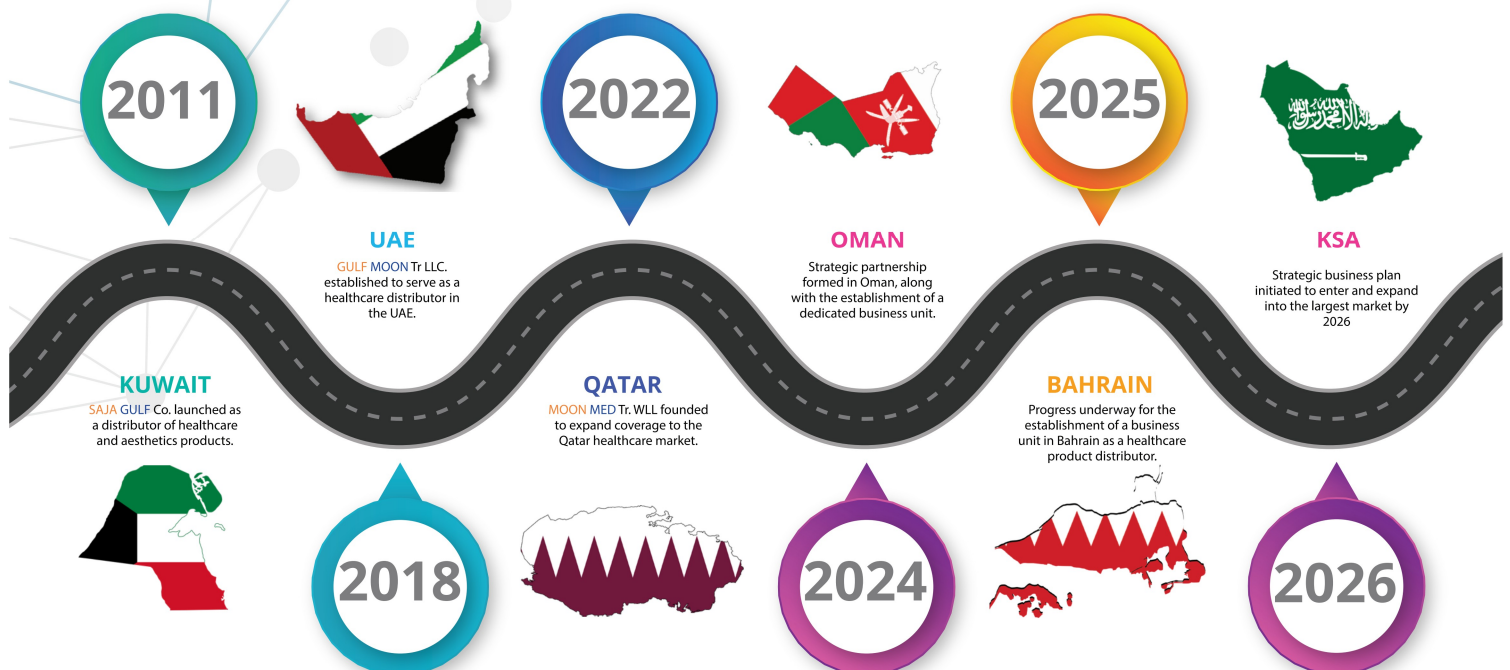

At **BASMed** Group, our mission is to provide exceptional healthcare products and services at competitive prices while maintaining the highest standards of quality. We are committed to a customer-focused approach, delivering unmatched support to empower our clients in providing superior healthcare solutions.

VISION

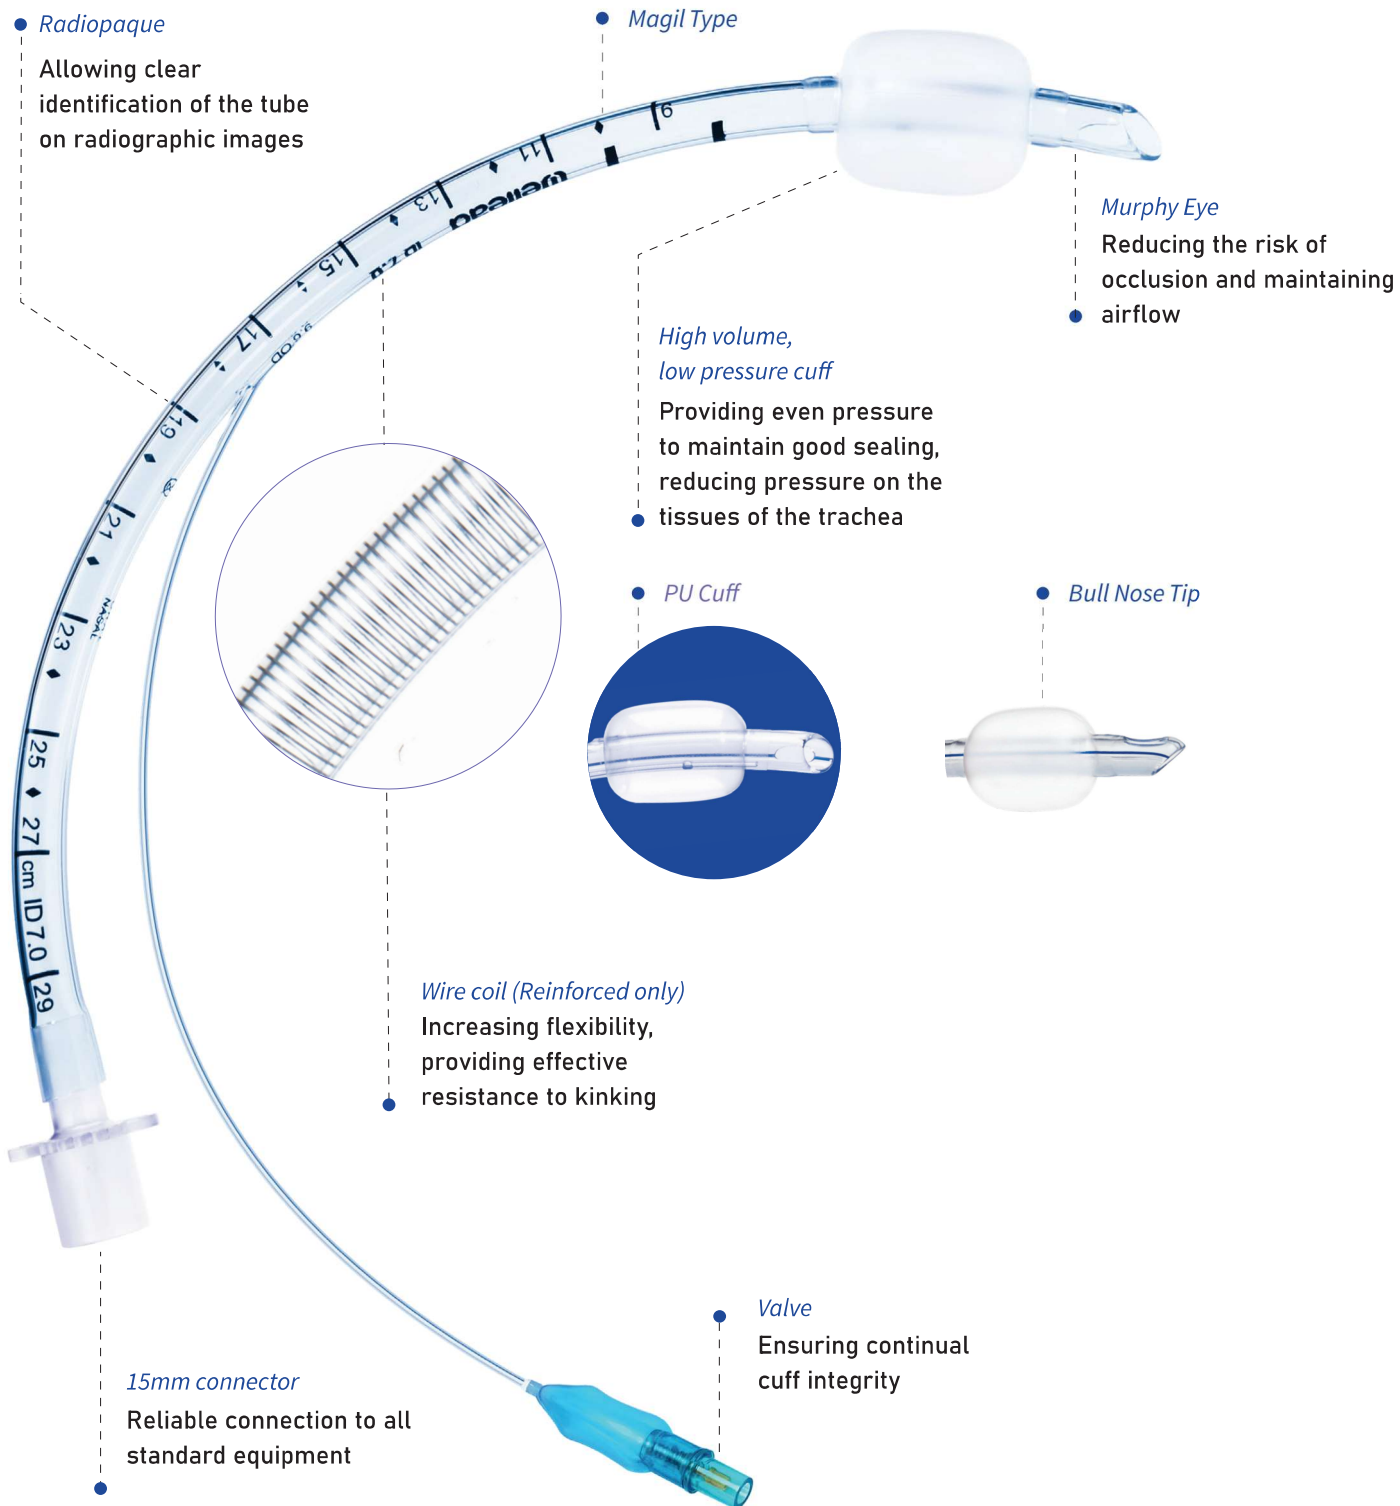

To establish a leading and enduring presence in the GCC healthcare market by becoming a trusted, all-encompassing solutions provider for service providers. Through close collaboration with manufacturers, suppliers, and distributors, we aim to set new benchmarks of excellence in delivering quality healthcare products and services.

VALUES

- Customers-Centricity
- Integrity
- Quality Excellence
- Innovation
- Collaboration
- Accountability
- Employee Focus
- Compassion

Intubating Stylet

Features

- Made of malleable aluminum covered with plastic sheath
- Soft rounded tip for minimizing patient trauma during intubation
- Flexible use for assistance of intubation

Size	Cat. No. (DEHP-FREE)
6Fr	A04B01062F
10Fr	A04B01101F
12Fr	A04B01121F
14Fr	A04B01142F

Tracheostomy Tube Holder

Tracheostomy tube holders are designed to provide secure positioning and to minimize movement of the tracheostomy tube. Unnecessary movement of the trach tube can result in accidental dislodgement or displacement of the tube, tracheoesophageal fistula, tracheal stenosis, or airway granuloma.

Size	Cat. No.
Adult	A04D030710
Pediatric	A04D030810

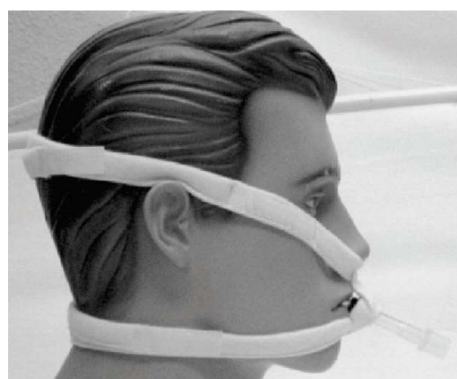

Tracheal Tube Holder

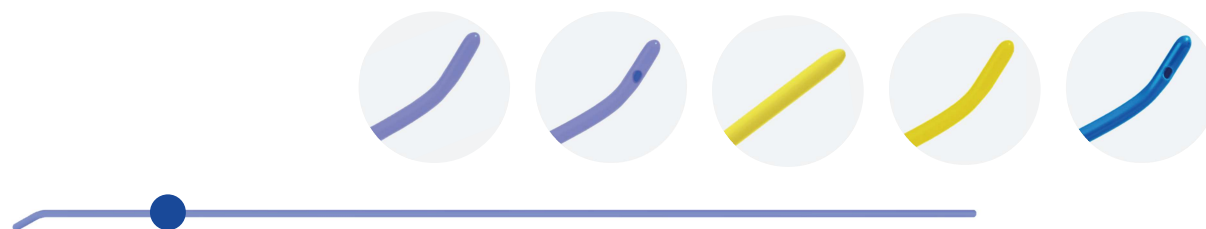

The tracheal tube holder is designed to provide a fast and secure fixation of the tracheal tube after insertion in trachea.

- *Features*
- Keep an tracheal tube in place without applying tape to the patients face
- Accommodate multiple-size ET tubes

Size	Cat. No.
Adult	A04D010110
Pediatric	A04D010210

Endotracheal Tube Introducer (Bougie)

ET Tube Introducers

(Bougies, solid type)

Solid type.

- For difficult intubation and tube exchange.
- Ultra smooth surface for low friction.
- Atraumatic tip to minimize risk of patient trauma.
- Scale mark indicates distance to the tip
- With or without angled tip.

Specification	Cat. No.
6Fr, 535mm, angled tip	A04A020610
10Fr, 700mm, angled tip	A04A021010
15Fr, 700mm, angled tip	A04A021510

Feeding Tube

■ Features

- Made of medical grade PVC
- X-ray opaque line throughout the length
- The proximal end is attached with cap for better control
- Different length is available
- The scaling on the tube is available
- DEHP-FREE material is available

Tracheostomy Tube

- Tracheostomy Tube is a hollow tube, with or without a cuff, that is electively inserted directly into the trachea through a surgical incision or with a wire-guided progressive dilatation technique in case of an emergency.
- Lightweight tube made of Medical grade PVC for patient comfort. Full length Radio-opaque line for detection of correct placement. ISO standard connector for universal connection to ventilation equipment. Printed neck plate with size information for easy identification.
- Straps provided in the pack for fixation of the tube. Smooth rounded tip of the Obturator reduces trauma during insertion. Rigid blister pack provides maximum protection for the tube.

Heat Moisture Exchanger Filter (HMEF)

Heat Moisture Exchanger Filters combine the abilities of filtration with humidification by minimizing moisture loss from expired gases, while performing filtration efficiencies up to 99.999%, thus saves heat and moisture while reduces risks of cross-contamination.

High Efficiency Paper Pleated Filters with low resistance and high filtration efficiency up to 99.999% are also available to provide maximum protection over patients in ICU.

Bacterial And Viral Filter

Filters are used with patients whose upper airways are being bypassed by an artificial tracheal airway removing the patients natural ability to filter inspired air or receiving artificial ventilator support where a gas is being introduced into a body cavity as during Laparoscopic surgery or to protect equipment, staff and the environment from potential cross contamination within Anaesthesia, Respiratory, Critical Care and Surgical clinical areas.

Catheter Mounts

Catheter mount, as a bridge of patient end and breathing circuit end, the patient end can be in combination with oxygen mask, HMEF, ET tube, laryngeal mask and etc. Attached with anesthetic breathing circuit, it helps to reduce the weight pressure on a patient's airway device or tracheostomy wound. Universal patient connectors and machine end connectors provide more options for airway management.

RETAIL

BASMed manages distribution across the GCC region through its subsidiary business units established in Kuwait, Qatar, Oman, and the UAE. The company is also expanding its retail operations in Bahrain and Saudi Arabia to achieve full market coverage across the GCC.

BRAND

BASMed creates its own product lines through OEM/ODM collaborations with manufacturers operating state-of-the-art facilities in China, Korea, Malaysia, India, and other countries. Each product in our brand portfolio is carefully selected and highly customized to meet the specific needs of our regional customers.

MANAGED BUSINESS SERVICES

BASMed Managed Business Services (MBS) provides global healthcare product manufacturers with the support they need to establish or expand their presence and grow their market share in GCC markets. Through our "Incubatory Program," MBS also offers tailored services to distributors in the GCC region, helping them enhance their market presence with expert guidance.

HEALTHCARE DIGITAL SOLUTIONS

BASMed delivers cutting-edge digital healthcare solutions, including AI-Care Tailored Health Solutions, Digital Healthcare Solutions, Hospital Automation, and Healthcare Service Provider Consulting, aimed at optimizing operations, elevating patient care, and streamlining healthcare services across the GCC.

In 2019, **BASMed** Group entered into a joint venture agreement with a partner in China, resulting in the establishment of "Chengdu LANMED International Trading Co." This entity focuses on identifying and evaluating OEM/ODM partners, overseeing quality assurance and quality control (QA/QC) processes, and managing shipment logistics services from China to Gulf countries.

BASMed Group entered into a Memorandum of Understanding (MOU) with the renowned Chinese manufacturer "Dongpin Intelligent Health Technology Co. LTD," known for producing hospital and spa furniture. Together established "**Golden Crown** Furniture Trading LLC" in the United Arab Emirates. This business unit provides comprehensive furniture solutions for hospitals, healthcare facilities, cosmetic centers, beauty salons, and spas, supported by a state-of-the-art showroom and a well-stocked warehouse to serve the target market efficiently.
